*Throughout my entire career Sam was a key part of my team. My trust in his expertise has always been 100%. If I've had a great career, it is in large part due to Sam and his knowledge of the game of tennis. He knows the specific strains the sport puts on an athlete's body and how to recover from them. On top of that Sam has always been a trusted friend who i could go to for mental support. With the team of experts he's surrounding himself with now, and the state of art facilities he has built, there's effectively no better place in the world to go for your recovery. – **Kim Clijsters***

*“When an athlete gets injured, we look for the best team to help us get back to the top. Sometimes, that means traveling all over the world to find the best situation. When I injured my wrist in August 2017, we decided that the best rehab team for my injury was Sam and his team. I moved to Belgium for two and a half months to get myself ready for the ATP Tour again. I am thankful for the work Sam and his team did to help me get back.” – **Kei Nishikori***
